Allworx Announces Speech Recognition Capabilities Utilizing Incendonet on the 6X and 24X VoIP PBX

Agreement empowers Allworx customers to add powerful speech-driven applications in a plug and play manner

EAST ROCHESTER, N.Y and ENCINITAS, Calif., November 16, 2009—Allworx, www.allworx.com, which develops Internet Protocol-based (IP) phone systems that deliver new capabilities and efficiency to small and medium-sized businesses (SMB), and Incendonet, Inc., a leading provider of speech recognition solutions for the enterprise, today announced that companies using the 6X and 24X for their IP-PBX communications needs can now add speech recognition-based solutions in a plug and play manner to improve customer service, reduce operating costs and increase mobile worker productivity with Incendonet's SpeechBridge®.

SpeechBridge is the perfect complement to the Allworx VoIP offerings, with its integrated speech-attendant, email and calendaring applications customers will begin realizing a return on their investment from day one. Through extensive interoperability testing, Incendonet and Allworx have verified their customers will receive the latest benefits of speech recognition-based solutions as a plug-and-play enhancement to their IP phone system.

"Combining Incendonet's SpeechBridge technology with the Allworx advanced line of IP PBXs and straight-forward SIP implementation brings powerful communication capabilities to the SMB market not before possible," said Jason Beckett, director of sales at Allworx. "These complimentary offerings help SMBs compete in today's competitive business environment with advanced communications solutions at an appropriate price point."

"We are excited to collaborate with Allworx and mutually certify our offerings to be interoperable," said Tim Kruse, VP of sales and business development at Incendonet. "Now with

Allworx and SpeechBridge, smaller businesses can benefit from the latest VoIP and speech recognition technologies previously reserved for only the largest enterprises.”

About Incendonet, Inc.

Headquartered in Encinitas, California, Incendonet, Inc. is a software development company bringing speech recognition solutions to enterprises of all sizes. With the SpeechBridge® family of products, enterprise speech has never been as easy or cost effective to implement.

SpeechBridge appliances are available directly from Incendonet and through select VARs and IP-PBX OEM partners.
