## **Allworx Unveils New 9204G Phone at ITEXPO EAST 2011**

*New VoIP Phone Offers a Built-in Gigabit Switch  
within the Award Winning 9204 Phone*

EAST ROCHESTER, N.Y. – February 2, 2011 – Allworx ([www.allworx.com](http://www.allworx.com)), a wholly owned subsidiary of PAETEC Holding Corp. (NASDAQ: PAET), which develops award winning Internet Protocol (IP) phone and network systems for businesses of all sizes today unveiled the [Allworx 9204G](#), the newest addition to the Allworx series of IP phones.

The appearance of the 9204G phone model complements the 9212 and 9224 phone models in a smaller, PBX-type phone footprint. The sleek, stylish design of the 9204G is ideal for any office setting and its improved audio quality is optimal whether speaking on the handset, a headset, or on speakerphone. Allworx will be showcasing its entire family of award-winning phones and systems at [ITEXPO East 2011](#) this week at the Miami Convention Center at the PAETEC Allworx booth #301.

“This is our first Gigabit-based phone and it provides all of the unique features of our Allworx product line at blazing speeds which will prepare any business for the increased requirements of the future,” said Chris Hasenauer, president of Allworx. “Using the 9204G with embedded gigabit switch ensures that the phone will never be the limiting factor on network performance.”

### **Allworx 9204G features include:**

- Four (4) Programmable Feature Keys
- 192 x 64 monochrome graphical display
- Adjustable backlit LCD Display
- Enhanced Full-Duplex Speakerphone

- Wideband Audio Support via G.722
- 10/100/1000 Gigabit Ethernet switch
- Four (4) party conferencing

**About Allworx:**

Allworx, a wholly owned subsidiary of PAETEC Holding Corp., develops award winning phone and network systems for businesses and distributes them through a network of Authorized Partners. The product line includes the Allworx 6x and 48x systems, Px 6/2 Port Expander, and Allworx 9224 phone, Tx 92/24 Expander, 9212, 9204G and 9204 IP phones along with a series of software options. By combining the advanced features of today's VoIP systems with the key system features all businesses have grown to rely on, Allworx systems are ideal replacements for the millions of aging (TDM) PBX and key phone systems in use today. Allworx' Consulting Division delivers elite software and digital hardware engineering services to both large and small companies who want to enhance and compliment their research and product development capabilities.
